**"We seem to have a compulsion these days to bury time capsules in order to give those people living in the next century or so some idea of what we are like. I have prepared one of my own. I have placed some rather large samples of dynamite, gunpowder, and nitroglycerin. My time capsule is set to go off in the year 3000. It will show them what we are really like."

SES I C.

Why did the Aztec Empire fall so quickly? How did 600 hundred Spaniards defeat thousands of Aztec warriors? The fall of the Aztec Empire is a well-documented and highly debated historical event. This Empire was known for their mighty warriors that were able to maintain throughout Mexico for hundreds of years. Thus, any academic would find it perplexing to accept the Spanish conquistadors, Cortez, abomination of such an awesome Empire. Thus religion is a factor that can begin to explain how a rapid take over of the Aztec Empire occurred. I will compare and contrast differing historical perspectives of the fall of the Aztec Empire with regards to religion, in particular the role of the Creator God Quetzalcoatl.

Through the explanation of the religious aspect of the Aztec people one can begin to understand the victorious position Cortez's fleet was destined to. One must remember the life history of each historian's theory of the Aztec Empire. At what historic time and what birth country each carry with them as they try to understand a civilization that is so foreign to so many. Many historians perceived this ritual as barbaric and this might have led to either overt or covert biases in the analysis of this historical event.

I want to use pornography in my work  
to get a famous, kinky and a rude image.*

**Nice Idea!** *How do I start?* The masses will love you.

*Take photos of all your girlfriends, they must be naked of course.  
Use the photos for your artworks but erase the "critical" areas,  
especially if you are living in the USA.*

*You can show brutality, horror and violence, but no tits. Dude!*

*Keep that in mind.*
